The dictionary menu screen appears.

**Category menu**

Select an item by pressing ( ) or ( ).

**Individual menu**

Select an item by pressing ( ) or ( ) and then press (選択).

Or, select an item by typing (1 to 9).

**Selecting a function in the Home screen**

Press (Home) to display the Home screen. You can select and use unit functions from the Home screen.

**Touch operations**

The PW-A7300 can be operated by touching the main screen with the stylus. The following touch operations are supported.

**Single touch:**

This is the operation of lightly touching or pressing an item or button on the screen and releasing it.

**Drag:**

This is the operation of moving the stylus from one point on the screen to another with the stylus touching the screen. This is used for such purposes as widening the range of selected characters.

- If content is out of view at the top or bottom of the screen, the screen image can be dragged up or down with the stylus to bring the content into view. (Some content or screen images may not move.)
**Buttons in the main display**

- Use for handwriting entry in the main display screen.
- Use for kana entry in the main display screen.
- Shows the handwritten memo list screen.

**Kana entry in the main display screen**

Kana entry can be used to enter Japanese.

**Example:** Entering どいるい "the delicious" in the スーパー辞林.

1. Press 大辞林.
2. Touch 再生/検索.
3. Enter どいるい "using the kana entry pad.

**Entering characters using the handwriting area**

**Parts and functions**

- The handwriting entry pad is set to enter characters when the cursor is in any part of the character entry area.

**Frameless pad**

- Can be selected from the menu.
- For manual recognition or for immediate recognition, select the desired function in Step 4 by touching it.

**Examples:**

1. Press 大辞林.
2. Touch 再生/検索.
3. Enter どいるい "using the kana entry pad.

**Entering characters using the single-frame pad**

Example: Entering どいるい "the delicious".

1. Press 大辞林.

**Example:** Entering "a", "in the スーパー辞林.

1. Press 大辞林.
2. Touch 再生/検索.
3. Enter "using the kana entry pad.

4. If the word is not correctly recognized, do the following:

   **Replacing characters**

   If the recognized number of characters is correct but a character is incorrect, touch the incorrect character. 
   Candidate characters will appear below the word. Touch the correct character and it will replace the incorrect character.

   **Selecting from the candidates**

   If the number of recognized characters is incorrect (or characters are incorrect), the separation between the characters is not correctly recognized. In this case, touch 取消 related to the selected word.

   **Points on writing handwritten characters**

   Paying attention to the following points will ensure that handwritten characters are easily recognized.

   - Write each individual stroke clearly. Ensure that characters have the correct number of strokes.
   - Write clearly and do not use short or conventional forms. Avoid writing sloping characters.
   - On the single-frame pad, write lower case characters smaller to distinguish between identical-looking upper and lower case characters such as upper case ‘C’ and lower case ‘c’. Small characters such as the small ‘-’ should also be written smaller.
   - Use the English letter ‘c’ block form and do not add ornamentation to the ends of strokes.
   - When using frameless entry, write English characters separately, one at a time. You cannot write in course style or return to previously formed characters to add dots or crosses.
   - When using frameless entry, write words on a single line. You cannot write on two lines.
   - When writing letters, do not press hard, always write lightly.

   **Using the mark on the screen**

   Appearance of the  or mark on the screen indicates more information related to the entry is available, such as example sentences, explanations, illustrations, diagrams, tables, and videos.

   **Listen to audio**

   When the mark appears, audio of the displayed information can be played back.

   Press to stop the audio during play. After the audio stops, press 音量大 and the color of the mark will revert to non-inverted.

   **Selecting functions by touching**

   You can select various functions by touching the screen with the stylus, i.e., by highlighting by dragging.

   1. Press 关 / 開.
   2. Enter the word (eg. "header") in the "スペリング" field, and press 開 / 閉.
   3. Touch the starting point "文" and drag to highlight the words up to the end point "文".
   4. Touch the function to execute (eg."マークマークを引きます") (mark user-selected words).

   The mark color selection window appears.

   5. Select the marker color to use (green, yellow, pink, orange, purple).

   The words are registered in the word dictionary and marked in the selected color.

   - To select a different function such as Audio or S-jump, select the desired function in Step 4 by touching it.
